### Manufacturer's Certification Statement Pertaining to the American Recovery and Reinvestment Act of 2009

This manufacturer's certification statement provides the documentation required to receive an energy tax credit for Polar Seal windows and patio doors under the A.R.R.A. of 2009.

This statement pertains to the class of exterior windows and doors which have been identified and defined in Section 4.01 of IRS Notice 2009-53 as an eligible building envelope component. An exterior window or door is eligible when it meets Energy Star criteria if purchased 01/01/09 – 05/31/09. For all purchases made 06/01/09 and put into service by 12/31/10, an eligible exterior window or door requires a U-factor of .30 or less and a SHGC (Solar Heat Gain Coefficient) of .30 or less.

**All** Polar Seal windows and patio doors manufactured with double or triple pane glass and any type of Low E glass with Argon gas filling are Energy Star qualified and thus eligible for the tax credit if purchased 01/01/09 – 05/31/09. **Only** Polar Seal windows and patio doors ordered and manufactured with our "tax credit glass" option are eligible for the tax credit if purchased 06/01/09 or later.

Under penalties of perjury, I declare that I have examined this certification statement and to the best of my knowledge and belief, the facts are true, correct and complete.

  
Jason Blyveis, President  
Polar Seal Window Corp.

\*Polar Seal Window Corp. is not a tax advisor. Taxpayers claiming a tax credit should consult a tax professional with any questions. Polar Seal is not responsible or liable for the taxpayer's ability to receive tax credits. This certification statement should be retained with your tax records as well as your sales receipt, but is not required to be submitted with your tax returns. Maximum credit available is 30% of the material portion (installation costs NOT included) up to a maximum of \$1,500.00.
